- Cancelled after December 26th, 50% of the reservation amount will be charged

**Other informations**:
I also inform you that we only make reservations for the interior of the restaurant and seats on the terrace are on a first-come, first-served basis. Those who arrive early will have more seats available to choose from.
I also inform you, for security reasons, the police authorities create a security perimeter with checkpoints where people are searched before entering.
As you can understand, there are thousands of people trying to enter the square, which makes it a time-consuming process for those who want to come later.
There have been cases, in previous years, of people who came to the square around 9pm and only managed to get through the checkpoint after 11pm, which meant that they did not have dinner after paying.
That's why we advise all our customers to come early, preferably around 7:30 pm to be able to enjoy our entire menu calmly. But they will only be able to stay at the establishment till 11pm.
With best regards.
The Management
Antonio Sousa
